

HP 1100 Laser Printer

The HP laserjet 1100 is a small top-loading personal laser printer. It's great for light printing needs. An **optional** scanner attachment turns this into a printer/copier/scanner

Highlights:

The personal HP LaserJet 1100 provides you with high-performance print functions for all your office printing needs. It quickly prints professional-looking documents at 8 pages per minute with true 600 dpi, HP Resolution Enhancement technology. It utilizes REt and the HP UltraPrecise toner cartridges. It prints the business documents you need with 2 MB standard memory (can be increased to 18 MB for complex print jobs). The printer supports alternative paper paths for a wide variety of print media and works with standard operating systems. And, which is even more important, you get superior HP LaserJet quality and reliability.
