

# HP 5000 Laser Printer

The Hewlett-Packard LaserJet 5000 incorporates HP's most innovative new technologies, establishing new standards for paper-handling, speed, print quality, and network printer management. The LaserJet 5000 series printers are ideal for general office, finance, CAD, desktop publishing, marketing or any workgroup that requires fast, high-quality monochrome printouts. And with the ability to print from 3x5-inch to full-bleed 11x17-inch images, they're an affordable alternative to 'multiple printer' departments or sending your work out of the office. The LaserJet 5000 starts with a tremendous print speed of 16 Pages-Per-Minute, delivers sharp monochrome prints at 1200 Dots-Per-Inch resolution and takes just 13 seconds to warm up.

## HP 5000 Printer

Product Family	LaserJet
Product Line Series Model	5000TN
Operating System	IBM OS/2, Microsoft Windows 95, Microsoft Windows 98, Microsoft Windows NT 4.0, UNIX, DOS, Sun Solaris (Unspecified Version)
Connectors	Ethernet - RJ45 Twisted-Pair (XBaseT), Serial - 9 pin D-shell (EIA 574/232), Parallel - 36 pin Centronics (IEEE 1284B)
Black and White Horizontal Resolution	1200 dpi
Black and White Print Speed	16 ppm
Black and White Vertical Resolution	1200 dpi
Case Pack Quantity	1
Included Network Card	AppleTalk, Ethernet (10 Mbps)
Manufacturer Sku	C4112A
Max Memory	100 MB
Max Sheet Capacity	1100
Media Sizes Accepted	Sheet - US Ledger/Tabloid (11" x 17")
Paper Handling Support	Envelopes, Paper (Standard Cut Sheet)
Printer Type	Monochrome Laser
Standard Input Sheet Capacity	850
System Type	PC (Intel x86 Compatible)
